PROFESSIONAL SUMMARY

Junior Manual QA Engineer testing web and mobile applications. Create test plans, checklists and bug reports; apply requirements testing and SDLC/STLC principles. Use a Python, Flutter and Next.js development background to understand application architecture and collaborate with developers.

TECHNICAL SKILLS

Manual Testing: Web / Mobile / API

Smoke

Regression

Functional

UI/UX Testing

Documentation: Test Plans, Test Cases, Checklists, Bug Reports · Jira, Trello, TestRail

API & network: Postman (Collections, Variables, Status Code Testing), HTTP/HTTPS, REST API

Diagnostics: Chrome DevTools (Network, Console) · **Databases:** SQL (basic queries)

Tools: Git / GitHub, Flutter SDK, WireGuard, Next.js, HTML/CSS

Programming — **basic:** Python (bot development), Dart (Flutter), JavaScript/TypeScript

PROJECTS (PRACTICAL QA & DEV EXPERIENCE)

Razom Car Sharing | App development & QA

Mobile application for car sharing and booking.

- Tested authorization, registration and document verification with positive, negative and boundary-value scenarios.
- Verified secure document handling and map-based car search, filtering and rental flows.

RushVPN | Android & QA

WireGuard VPN client focused on speed and stability.

- Tested connection stability when switching between Wi-Fi and mobile data, including auto-reconnect and tunnel states.
- Verified onboarding, RevenueCat premium subscriptions and end-to-end UI/UX flows.

Offer AI: Resume | AI product & Web QA

AI-powered platform for creating professional resumes.

- Tested data-entry validation and PDF/DOCX exports for layout and encoding accuracy.
- Verified AI model integration for logical and formatting errors.

PROJECTS (CONTINUED)

Interview AI - Aurora | Mobile AI & QA

AI-powered mobile interview simulator.

- Tested Speech-to-Text and text modes; validated AI interviewer responses and E2E network resilience.
- Verified subscription logic and user credit limit optimization.

NutriScan AI | Mobile UI & QA

Product barcode scanner with allergen detection.

- Tested barcode recognition in different lighting conditions and Open Food Facts API integration.
- Audited compliance with medical allergen disclaimers and GDPR privacy requirements.

ColoriumPremium | Web development & QA

Next.js service website with an interactive calculator.

- Tested API rate limiting, application forms and Telegram API integration for reliable lead delivery.
- Audited SEO structure, including JSON-LD microdata and sitemaps.

Telegram Bot Worker / Mail Bot | Bot development & automation

Booking automation and email-forwarding utilities.

- Tested booking system integrations through the Telegram API.
- Configured and tested IMAP/SMTP for secure, timely message delivery.

EDUCATIONAL EXPERIENCE IN QA

Manual QA Practice | Personal projects & real-environment simulations

- Tested commercial websites, including TakeCate, and mobile applications; created test plans, detailed test cases and checklists.
- Managed test scenarios in TestRail and logged bug reports in Jira.
- Analyzed network requests and console errors in Chrome DevTools; verified responsive layouts.
- Tested API endpoints, parameters, assertions and status codes in Postman.

PREVIOUS WORK EXPERIENCE

Procurement Manager | Reseller, Ukraine

Dec 2020 — Jan 2022

- Controlled product receipt and verified technical specifications, input-data quality and acceptance criteria.

Diagnostics Specialist | IT Repair, Ukraine

Dec 2014 — Nov 2020

- Diagnosed hardware and software faults; isolated defects using analytical troubleshooting and knowledge of system architecture.

Available for a test assignment and interview.
