Maksym Kasianov

Junior Manual QA Engineer | Web, Mobile & API Testing

Zhytomyr, Ukraine | +380 75 615 17 81 | kasyanowmax@gmail.com | linkedin.com/in/maksym-kasianov | t.me/moslyharmless | github.com/MoslyHarmless | Portfolio: moslyharmless.github.io/cv-portfolio

SUMMARY

Junior Manual QA Engineer who tests web, mobile (Android, iOS) and API products and has built eight of them from scratch, two released on Google Play. Writes test plans, test cases, checklists and clear bug reports in Jira; applies test design techniques, SDLC and STLC; automates UI smoke and regression checks with Selenium and Playwright in CI. Six years of hardware and software fault diagnostics give a habit of finding root causes, and a background in Python, Flutter and Next.js makes it easy to talk to developers.

SKILLS

- **Testing:** Manual testing of web, mobile (Android, iOS) and API; functional, smoke, sanity, regression, exploratory, UI/UX, cross-browser, compatibility and localization testing
- **Test design:** Equivalence partitioning, boundary value analysis, decision tables, state transition, error guessing
- **Documentation:** Test plans, test cases, checklists, bug reports, test summary reports
- **Tools:** Jira, TestRail, Trello, Postman, Chrome DevTools, Android Studio (Logcat, emulator), Git / GitHub
- **Automation:** Selenium WebDriver, Playwright, UI smoke and regression suites, running tests in CI
- **API & data:** REST API, HTTP / HTTPS, JSON, status codes, SQL (SELECT, JOIN, GROUP BY), PostgreSQL
- **Process:** SDLC, STLC, Agile / Scrum, bug life cycle, severity and priority
- **Development:** Python, Dart / Flutter, JavaScript / TypeScript, Next.js, FastAPI, HTML / CSS
- **Languages:** English — B2 (Upper-Intermediate), Ukrainian — native

EXPERIENCE

Manual QA Engineer & App Developer — Independent projects

2022 – Present

- Built and tested 8 products: Android and Flutter apps, web services and Telegram bots; 2 released on Google Play.
- Wrote test plans, test cases and checklists; ran test scenarios in TestRail and tracked defects in Jira.
- Tested REST APIs in Postman and debugged network and console errors in Chrome DevTools.
- Automated UI smoke and regression checks with Selenium WebDriver and Playwright and ran them in CI.
- Practised on commercial websites such as TakeCate: functional, UI and responsive layout testing.

Procurement Manager — Reseller, Ukraine

Dec 2020 – Jan 2022

- Checked every delivery against technical specifications and acceptance criteria before sign-off.
- Logged discrepancies and resolved them with suppliers: the same loop as defect reporting.

Diagnostics Specialist — IT Repair, Ukraine

Dec 2014 – Nov 2020

- Six years of finding the root cause of hardware and software faults in computers and phones.
- Reproduced intermittent issues, isolated the failing component and verified every fix.

PROJECTS

Offer AI

AI resume builder · Android | Android, FastAPI, OpenAI API, PostgreSQL, PDF / DOCX | Google Play, moslyharmless.github.io

Turns a user's experience into a resume and cover letter with OpenAI, translates it and exports ATS-friendly PDF and DOCX files. Released on Google Play.

- Validation of every form field: required fields, length limits, Cyrillic and special characters
- PDF and DOCX export: layout, fonts and encoding for English and Ukrainian resumes
- AI output: invented facts, broken formatting, translation quality

RushVPN

VPN client · Android | Android, WireGuard, RevenueCat, AdMob | Google Play, moslyharmless.github.io/rush-vpn-website

A fast WireGuard VPN client with a premium tier on RevenueCat. Released on Google Play.

- Network handover between Wi-Fi and mobile data: auto-reconnect and tunnel states
- Subscription purchase, restore and expiry in the RevenueCat sandbox
- Onboarding and the system VPN permission, including the denial path

NutriScan AI

Barcode scanner · Mobile | Flutter, Dart, FastAPI, Open Food Facts API

Scans a product barcode and flags allergens and risky ingredients using Open Food Facts and its own backend.

- Barcode recognition in low light, with glare, on curved and damaged labels
- Fallback when a product is missing from Open Food Facts
- Allergen warnings and the medical disclaimer

Interview AI — Aurora

AI interview simulator · Mobile | Mobile, Speech-to-Text, LLM API, Subscriptions

Practice job interviews with an AI interviewer, by voice or by text.

- Speech-to-Text accuracy with accents, background noise and long answers
- Network loss in the middle of a session and session recovery
- Credit limits and subscriptions, boundary values at zero credits

Razom Car Sharing

Car sharing · Mobile | Flutter, Maps, Document upload

Find a car nearby on the map, filter and rent it; sign up with document verification.

- Sign-up and login: positive, negative and boundary-value cases
- Document upload: file types, size limits, safe handling of personal data
- Map search, filters and the full rental flow from booking to return

VoxFlow

Voice to tasks · Web | JavaScript, HTML / CSS, Web Audio | moslyharmless.github.io/VoxFlow

A privacy-first productivity app that turns voice notes into structured tasks and plans.

- Microphone permission, including the denied-access path
- Long, messy notes split into clear tasks
- Responsive layout in mobile and desktop browsers

ColoriumPremium

Service website · Next.js | Next.js, TypeScript, Telegram Bot API, JSON-LD | moslyharmless.github.io/siteColorium

Website for a premium wallpaper painting service with a price calculator and leads delivered to Telegram.

- Calculator logic with equivalence classes and boundary values
- Playwright smoke tests for the calculator and forms, run in CI on every change
- Form validation, spam protection and API rate limiting

Telegram bots

Automation · Python | Python, aiogram 3, PostgreSQL, IMAP / SMTP

Bots for video downloads, temporary email and booking automation, used by real people every day.

- Commands and inline keyboards, including invalid input
- IMAP/SMTP delivery: latency, attachments, verification codes
- Payments with Telegram Stars and premium limits

EDUCATION

Management of Foreign Economic Activity — Donetsk State University of Management

2009 – 2014

Manual QA courses — ITVDN, Popeliuha QA and other authors

Courses

- Test design, test documentation, bug tracking in Jira, API testing in Postman, SQL basics.
